

ENF Successfully Concludes 3rd Hiwaruna Workshop

Building on *Hiwaruna's* previous success, Elia Nuqul Foundation (ENF) organized its third workshop which runs as a fun and interactive workshop to garner interest from the maximum number of scholars.

Elia Nuqul Foundation invited Jamil Sarraj, a creative thinking specialist from Ripple, to conduct the workshop. Sarraj is known for his engaging style and highly interactive approach.

During the *Hiwaruna* workshop, Sarraj focused on various methods to enhance creative thinking and ways of strengthening individuals' intellect. The workshop sought to help scholars tap into their hidden talents and use them in their daily lives.

Concluding the third session, Randi Abdin, the Director of Elia Nuqul Foundation, commented on its importance saying, "The program has been successful in helping stimulate creativity among scholars and encouraging them to discover their personal talents. To utilize one's full mental capacity, there can be no restrictions or obstacles hindering its development."

It is noteworthy to mention that 'Hiwaruna' is an online discussion forum for Elia Nuqul Foundation and affiliated students giving them the chance to discuss important topics followed by scheduled meetings.
